CUSTOMER NOTIFICATION: Hach Singapore Legal Entity Change

Dear valued Customer,

We would like to inform you of a significant change in our business structure. On Sept. 14, 2022, Danaher Corporation initiated a spin-off to form a new company named Veralto, segregating its Environmental and Applied Solutions segment.

As a result of this separation, **the original Danaher water quality business in Singapore, primarily Hach, Trojan/Aquafine, will continue as an independent entity named HACH WATER QUALITY (Singapore) Pte Ltd. ("HACH Singapore")**. HACH Singapore, a subsidiary of Hach global, now falls under the umbrella of Veralto's operational companies.

Veralto, with a focus on Water Quality and Product Identification platforms, stands as a robust organization, promising enhanced growth opportunities and remarkable career prospects for its associates. Committed to delivering outstanding results, Veralto's resilient business model and Danaher Business System foundation position it favorably in the market.

The separation will not impact any existing legal agreements with us. All contracts will be assigned to HACH Singapore, and their terms remain unchanged. Post-separation, we look forward to maintaining our business relationship with your company. This reorganization allows us to concentrate on our core business of water quality and serve our customers even better. We assure you of seamless service delivery upholding our standard commitments.

In light of these changes, we kindly ask for the following:

1. Please continue doing business with us under Pall Filtration Pte.Ltd until **September 1st2023**.
2. Add HACH WATER QUALITY (SINGAPORE) PTE. LTD as a new vendor in your system, using the information provided below.

3. Please sign the Novation Agreement provided separately to facilitate the transfer of all contracts, including open quotations, purchase orders and service contracts, which cannot be performed or delivered before 1st of September. The purpose of the Novation Agreement is to novate the contracts from Pall Filtration Pte Ltd to HACH Singapore.

We value your cooperation during this transition and assure you of our continued commitment. Please share any information provided with your organization's relevant stakeholders to prepare for these changes. If you have any questions, feel free to contact us.

Thank you for your understanding and support.

Best regards,

Mingdi Lee

Commercial Director - Water Quality, Singapore
