

# TOC Too Hard? No, Too Easy With Hach!

Use Hach's latest colorimetric test for TOC: the TNTplus TOC reagent and TOC-X5 shaker used alongside Hach's easy-to-use spectrophotometers.

**30%  
OFF**

**Save up to 60%**  
of your time for TOC  
testing!

## Advantages Versus Other Colorimetric TOC Measurements

- Fast and easy 5-minute processing time to remove total inorganic carbon (TIC)
- Auto detection and recognition with barcode on vial
- No blank needed so there is less waste
- No handling and breaking glass indicator vials

## Advantages Versus Dedicated TOC Lab Analysers

- No need for a large capital outlay since it uses a spectrophotometer
- Easy to use: follow the instructions on the box

**30%  
OFF**

Buy the TOC-X5, TNT810 and TNT811  
and **Get 30% Off\***
